

disassembly

QUICK and SIMPLE!

Koni>

DRUM

To disassemble KONIK, once the wire is finished, simply unhook the cylindrical shape, remove it, place it in the appropriate pallet, and stack the drum together with the other empty drums.

Now, it can be shipped to the wire manufacturer, where it can be refilled for new use.

Spazzolplastica

EASIER SPOOLING WITH US

- Unhook the cylindrical shape

- Remove it

- Place it in the pallet

- Stack the drum together with the other empty drums

- Now it can be **SHIPPED** and **REFILLED** for new use!
